Baguio City

09569171704

acrosscoding@gmail.com

I'm a 16-year-old Filipina freelancer. I offer my services to businessmen and women, especially small enterprises and sole proprietors. I aim to serve my clients their best experience building and deploying their websites. With my overflowing passion and ambition, let me build you something.

Experience

Quiz App / Full-stack developer

December 13, 2022 - December 29, 2022

- The Quiz app must have a drag-and-drop API
- Using PHP, I must store the data on the MySQL database
- I struggled with the database part that eventually gets solved

Image Gallery / UI designer & Front-End Developer

December 22, 2022 - December 23, 2022

- My client requested a well-done 5 albums that consist of 10 images/videos per album
- The website is responsive, accessible and easy to use

Snake Game Website / UI designer & Full-stack developer

September 26, 2022

A self-project 1 day's worth of time creation. It is modernized with a great function snake game

Additional Self-Project Activities

Metaverse Website / Front-end Web developer

November 27, 2022

The Metaverse Website was built by Tailwind, React, and Modern Next 13 with a framer motion. The website completely passed modern standards for websites.

Chat-GPT AI Application / Full-stack Developer

December 25, 2022

When Chat-GPT bloomed, I also made one using Vite, nodeJS, and the most accurate OpenAI for modernized responses.

Skills

HTML, CSS, JavaScript, NodeJS, MongoDB, and Python. Using them, I can freely manipulate codes and build your desired website.
